To Whom It May Concern

Dear Sir/Madam

**RE: STATEMENT OF CAPACITY**

In my capacity of Director of Tascon Consulting and now as General Manager Projects for Bennelong Funds Management we have had an association with Frank Scolaro since 1998 at Allmore Constructions Pty Ltd.

Two main projects worked with Allmore Constructions were Love and Lewis Building in Chapel Street Prahran and the refurbishment of the top level of our current offices into executive offices for the Bennelong Group as its main worldwide headquarters.

Although different types of jobs both were very difficult to construct due to little access and required careful and detailed contract administration to ensure in both refurbishments costs and value for money criteria were achieved and maintained.

The outcome on each project was excellent and can be attributed to the professional and courteous manner of Allmore Constructions and in particular Frank Scolaro.

If required, we would be more than pleased to speak further on Frank Scolaro or Allmore Constructions account.

I can be contacted directly on 03 8611 6555.

Yours sincerely

David Tasker  
General Manager  
**Bennelong Funds Management**
