To whom it may concern

Re: Allmore Constructions Pty Ltd

I have conducted business with Allmore Constructions for approximately 15 years on a wide range of construction projects varying from office accommodation, research laboratories, building restoration and maintenance, Heritage applications and Heritage building modifications, cold rooms, multi-level carparks, animal holding and animal health facilities at our Parkville site. At all times, I have found that Allmore construction staff, site foremen and supervisors have been excellent in assisting achieving client satisfaction, budget adherence and safety, on all projects we have conducted together. Workmanship, quality and cooperation to make major changes without interruption to our daily business have always been to the forefront of our aims. Constant availability of quality competent staff to expedite speedy project resolution has always been provided where required by Allmore Constructions.

Yours sincerely,

Geoff Downie
Capital Works Project Manager
