April 27, 2010

To Whom it may concern.

Dear Sir or Madam:

I am pleased to offer this letter of recommendation for Mr. Frank Scolaro and Allmore Constructions.

In my position of Facilities Manager at Ford Motor Company, I first became aware of Allmore during the tendering phase of a large Engineering Office fitout at our Broadmeadows site. Allmore won the tender and Frank Scolaro managed the project. Their professionalism and diligence to our tight timing requirements and budget restraints ensured Allmore were short listed for a further expansion at the same facility, once more delivered on cost and time.

Following these successes, Allmore were again considered for several smaller (<\$5m) jobs at our Proving Ground site, again they won these by competitive tender and construction was completed as per our specifications.

The largest task Allmore has most recently worked on with Ford was the construction of our all new Engineering Research and Development Centre in Geelong with a budget of \$27m.

Frank Scolaro was the Allmore representative during the construction phase. His professionalism, fair dealings and attention to detail enabled the construction program to run smoothly. He was always willing to discuss and make recommendations regarding difficult aspects of the project, his cooperation and positive attitude helped ensure a mutually agreed outcome.

Should you wish to discuss any aspect of my dealings with Allmore, please contact me as per the details below.

Sincerely,

Peter Ellis
Facilities & Resources Manager
Ford Engineering Research & Development Centre
